

The CleanAir floor mounted fume hood is offered in a variety of widths, depths and heights and is designed to be easily customized to fit the customers specific application. With the ability to add pass-thru openings in the side walls, stainless steel access doors, and either angled or flat front posts, the CleanAir Series provides you with the versatility, durability and quality you also find in our benchtop models. With the easy to remove front panel, these hoods are perfect for chemical processes that require the need to move large pieces of a equipment in and out of the containment area.

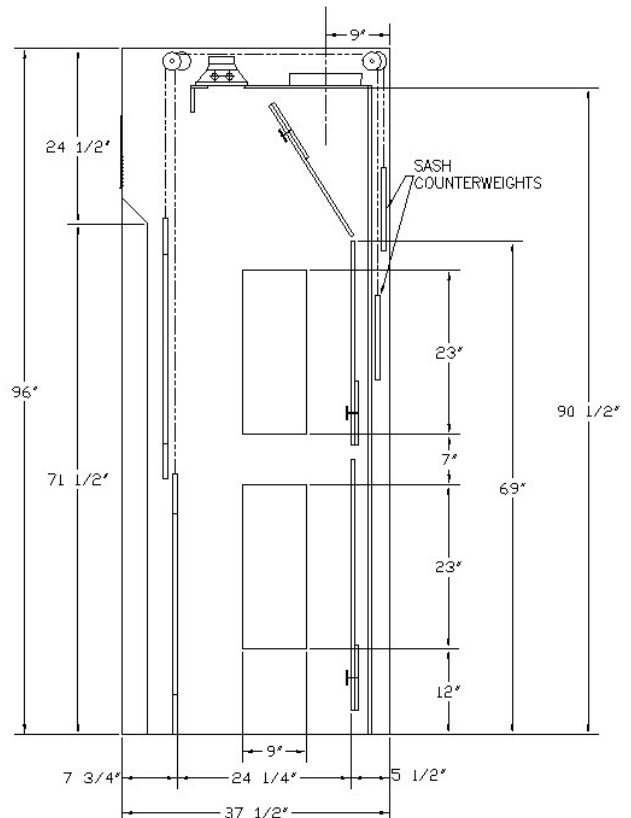

PERFORMANCE AND AFFORDABILITY - WITHOUT COMPROMISE

- 16g cold-rolled steel superstructure
- Stainless steel sash frame and guides
- Angled or flat posts designs for smooth airflow transition
- Three-piece baffle system
- LED (or explosion-proof) lighting for improved visibility
- Chemical resistant poly resin liner
- Chemical resistant powder coat finish
- ASHRAE-110 tested and approved
- 28 different width and depth configurations available

OPTIONAL EQUIPMENT

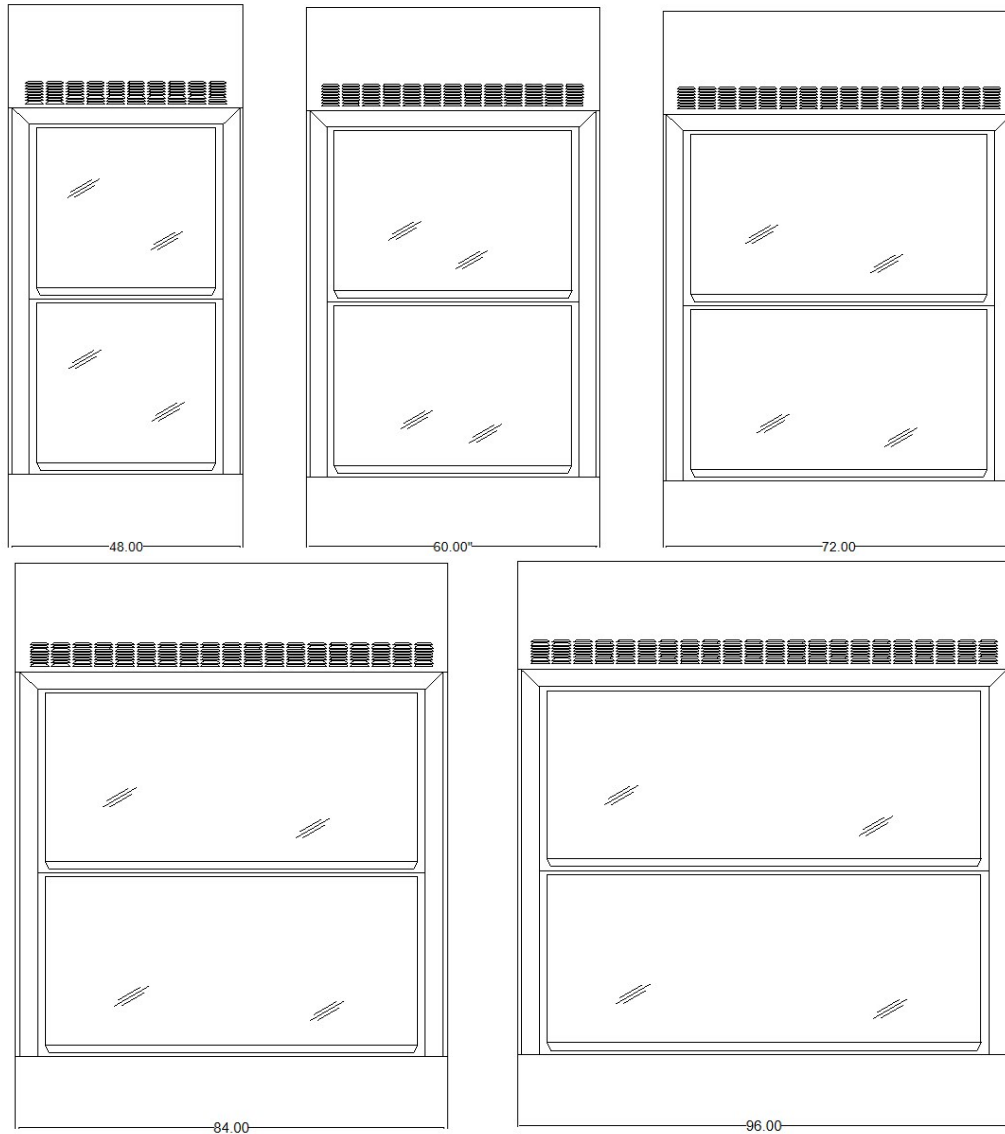

- Remote -controlled plumbing fixtures with chrome handles, pre-piped with flex hose or hard copper
